Факты

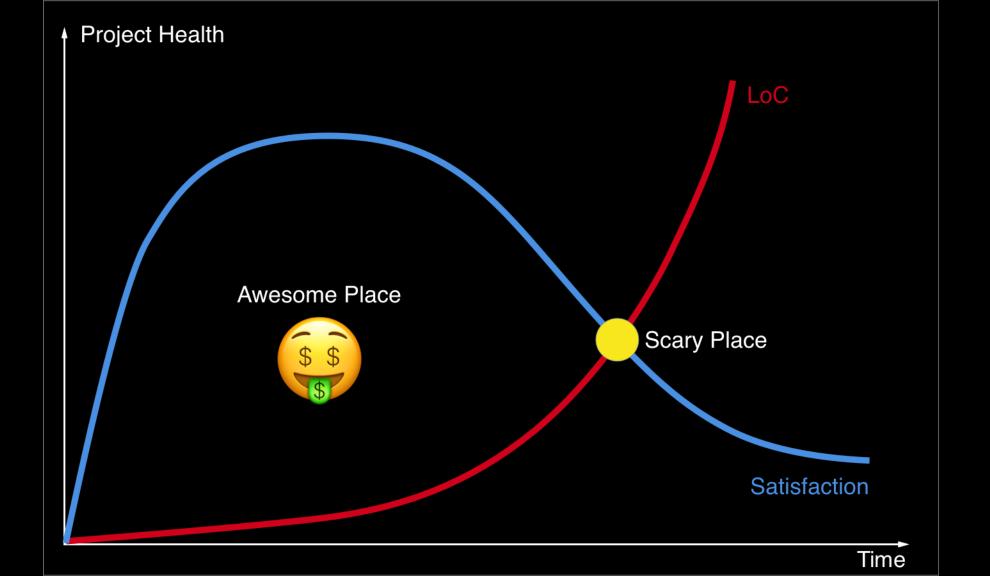

- Ha Rails с 2008 года
- >= Rails 2.2
- SmallTalk => Ruby
- Последние 5 лет слышу "Ruby/Rails мертв..."

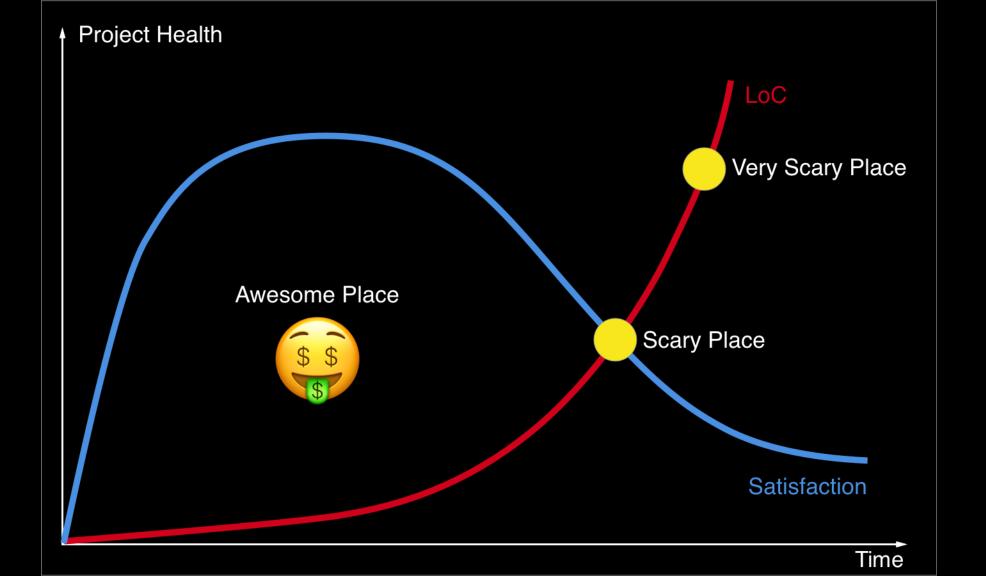

```
#####################
```

```
n :on => :create do
applicant
tatus ||= Application::CLOSING_STATUSES.likely
```

```
rnc_mailchimp_async, :on => :create
rnc_mailchimp_async, :if => :mailchimp_sync_needed?, :on => :update
rnc_mailchimp_async, :on => :destroy
```

Знакомо?

Разве проблема в Ruby?

Приложение – цепочка сервисов

Запрос => [*] => [*] => Ответ

Приложение – цепочка функций

Приложение – цепочка функций

class CreateDocument

. . .

end

Если в студии дизайнер не спал неделю, редкие седые волосы падают с его немытой головы, щеки впали, глаза красные, но при этом страница плохо сверстана, то меня волнует только то, что страница плохо сверстана.

Code samples

```
01. <!DOCTYPE html>
02. <html lang="en">
03. <head> <!--Comment-->
04. <title>Shower</title>
05. <meta charset="UTF-8">
06. 1 < link rel="stylesheet" href="screen.css">
07. </head>
```

Even tables

It's good to have information organized.

Locavore	Umami	Helvetica	Vegan
Fingerstache	Kale	Chips	Keytar
Sriracha	Gluten-free	Ennui	Keffiyeh
Thundercats	Jean	Shorts	Biodiesel
Terry	Richardson	Swag	Blog

All kind of lists

- 1. Simple lists are marked with bullets
- 2. Ordered lists begin with a number
- 3. You can even nest lists one inside another
 - Or mix their types
 - But do not go too far
 - Otherwise audience will be bored
- 4. Look, seven rows exactly!

Code

```
<!DOCTYPE html>
<html lang="en">
 <head>
    <title>Shower Presentation Engine</title>
    <meta charset="utf-8">
    <meta name="viewport" content="width=device-width, initial-scale=1">
    <link rel="stylesheet" href="./styles/styles.css">
 </head>
  <body class="shower list">
    <header class="caption">
      <h1>Тема доклада</h1>
      Описание
    </header>
    <section class="slide" id="cover">
      <img class="cover preview" src="pictures/jr_robot.jpg" alt="JetRockets">
     <h2 class="title">What developers<br>
        can learn from<br>
        Russian space failures</h2>
      <h2 class="contacts_name">Алексей Солинин, front-end JetRockets</h2>
    </section>
```
